Foreword

Crime is of great concern to all citizens of Virginia. By use of crime statistics, criminal justice agencies can make an informed decision concerning the most efficient and effective manner in which to dedicate their limited resources toward the reduction of crime in their communities. The Uniform Crime Reporting (UCR) Program is a system of collecting and analyzing crime statistics gathered on selected crimes by participating law enforcement agencies throughout the Commonwealth. We acknowledge the efforts made by these agencies in making this report accurate and concise.

All information in this report uses an incident based reporting format. The Incident Based Reporting (IBR) central repository went into production in January 1994. At that time all contributing agencies were given five years to convert their summary system into an incident based system. By 2000, all participating agencies were reporting incident based data. As of 2019, we at Department of State Police, procured a new repository system for better quality control and release of crime data throughout the Commonwealth. The results of the new repository system are reflected in the updated layout and reports for this year's Crime In Virginia report.

In the section, "NIBRS Agency Crime Overview," if the agency did not submit an entire year of data, the footnote beside the agency's name represents the number of months of submission. The statewide population 8,535,519 is a 2019 provisional estimate provided by the Weldon Cooper Center For Public Service, University of Virginia.

In accordance with the *Code of Virginia,* the Department of State Police, as the central repository, collects crime information from participating agencies. The most accurate information available in Virginia is used to generate the statistics contained in this annual report. IBR statistics were originally for police agencies only, but community concern has generated a use by both public and private sources. This use increases yearly. The IBR information has become the primary vehicle used to evaluate levels of criminal activity in jurisdictions throughout Virginia.

The participation and cooperation of all agencies making this publication possible is sincerely appreciated. The quality of the program continues to be maintained through their cooperative efforts.

Facts At A Glance

- The total number of incidents reported was 375,639. (Page 10)
- The total number of offenses reported was 418,888 and the month of May had the greatest number of offenses reported with 37,150. (Page 9 & 10)
- In the number of reported incidents, there were 434,911 Group A Crimes reported by the contributing agencies. (Page 8)
- Of the 17,993 violent crimes reported, 51% occurred in the residence/home. (Page 53)
- There were 5,854 victims of the 5,510 forcible sex offenses reported by the contributing agencies. (Page 19)
- The total theft of property was $382,523,118 and stolen financial property accounted for a property loss of $137,868,086. (Page 46)
- Firearms represented 32% of all known weapons used in aggravated assaults. Of all victims of aggravated assault, 61.8% had some type of injury. (Page 16)
- There were 128,738 Group A arrests and 145,898 Group B arrests reported by the contributing agencies. (Pages 66 & 67)
- There were 1,939 assaults on officers reported in Virginia. Slightly more than one quarter (27.6%) involved some type of injury to the officer. (Page 76)
- Of the 185 hate crime offenses reported, 62% of these were assault offenses (aggravated assault, simple assault) or vandalism/damage of property offenses. (Page 59)

As of March 19, 2019, the Virginia Department of State Police Uniform Crime Reporting Section updated the crime data repository and added six new crime classifications. Increases or decreases in published information may be because of technical or procedural differences and the additional crime data collections. For example, the addition of 'Animal Cruelty' will yield higher overall crime counts. ***All data included in this report is as of March 25, 2020****.*

Clearance Rates: The IBR system does not accurately reflect the volume of clearances each department produces in a given year. Additionally, the number of arrests in a jurisdiction does not provide precise offense clearance information in that one person arrested could clear multiple offenses. Please contact individual agencies for incident clearance information.

Virginia Uniform Crime Reporting Program

HISTORY

Development of the nationwide summary Uniform Crime Reporting (UCR) Program began ninety years ago. In 1930, crime counts were first requested from local police departments, with the Federal Bureau of Investigation designated by Congress to collect, compile, and analyze these figures. The Committee on Uniform Crime Records of the International Association of Chiefs of Police played a primary role in the origin and development of the UCR Program and serves in a strong advisory capacity. In 1966, the National Sheriffs' Association (NSA) established a Committee on Uniform Crime Reporting to serve in an advisory capacity to the NSA membership and the National Uniform Crime Reporting Program. Today, this committee and similar committees within the state law enforcement associations are active in promoting interest in the UCR Program. Standardized offense classifications and scoring procedures to ensure uniformity and consistency of data were major components in all of these reports. All of the Uniform Crime Reports were designed to be a by-product of information that a law enforcement agency should routinely compile for its own efficient administration and performance. The underlying philosophy and focus is and always has been oriented toward the creation of police statistics for use by law enforcement agencies. The unique nature of the program, however, also makes the data invaluable for use by elected officials and the public.

The FBI has actively assisted individual states in the development of statewide programs of police statistics compatible with the national system. These state statistical programs provide the advantage of increased coverage of reporting by law enforcement agencies. State systems also provide direct and frequent service to law enforcement agencies in assuring completeness and quality of information provided by them. Through coordination by the state collection agency, the data is available for use by the state while substantially streamlining the collection and reporting machinery for the national program.

Prior to June 30, 1974, no mandatory uniform crime reporting law existed in Virginia, and of the 288 agencies in the Commonwealth, 162 or 56% were voluntarily reporting directly to the Federal Bureau of Investigation. As of 2019, participation is at 96%, covering most of the Commonwealth. Effective law enforcement requires the cooperation and coordination of all law enforcement agencies within and among political subdivisions. Such efforts become possible only through the collection and statistical analyses of complete and accurate information.

The need for complete and accurate information on the number of offenses and offenders was long recognized in the state. The system developed in Virginia produced vital information that assisted law enforcement agencies throughout the state by furnishing information for management decisions and planning programs. Virginia has now converted to a more extensive data collection system. This new system is discussed on the following page.

A statewide UCR program informs the Governor, Legislature, local and state law enforcement agencies, other governmental officials, and the public as to the nature, magnitude and trends of crime in Virginia. Through the collection of timely and reliable statistical information, local and state officials are better able to assess the direction and impact of crime.

UCR SYSTEM OBJECTIVES

The fundamental objectives of the Virginia Uniform Crime Reporting Program are:

1) To inform the Governor, Legislature, and other governmental officials, and the public as to the nature of the crime problem in Virginia—its magnitude and its trend.
2) To provide law enforcement administrators with criminal statistics for administrative and operational use.
3) To provide base data and statistics to measure the workload and effectiveness of Virginia's criminal justice system.
4) To provide base data and statistics to measure the effects of prevention and deterrence programs.
5) To provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
6) To provide base data to assist in the assessment of social and other causes for the development of theories of criminal behavior.

Incident Based Reporting

Virginia has been publishing crime data in an expanded format since 1994. This reporting system, fully implemented in 2000, is known as Incident Based Reporting (IBR). The following information is furnished to provide an overall description of IBR.

During the preliminary development of IBR by the Federal Bureau of Investigation, advice was solicited from the National Association of State UCR programs, the International Association of Chiefs of Police, the National Sheriffs' Association, the National Alliance of State Drug Enforcement Agencies and other federal, state and local criminal justice agencies.

The guidelines and specifications developed were provided to South Carolina for testing through a pilot program in 1987. As a result of this testing, further refinements were made. In 1988, a national conference was held to present these guidelines and obtain feedback from representatives of law enforcement agencies in attendance. Recommendations included efforts to implement this system nationally, that the Federal Bureau of Investigation would manage this program and that an Advisory Policy Board be formed to assist in the development and implementation of the new program.

Virginia formed a State UCR Committee in 1986 to follow the developments of IBR and to evaluate its impact. This committee was composed of representatives from the Virginia State Sheriffs' Association, the Virginia Association of Chiefs of Police, the Department of Criminal Justice Services, and the Department of State Police. The State UCR Committee created the UCR Forms Subcommittee, which included representatives from police and sheriffs' agencies, the State Police, and the Department of Criminal Justice Services. This subcommittee developed, tested and subsequently recommended a standard Incident Based Reporting form for use in Virginia. The Forms Subcommittee recommended this form be used at the option of the reporting agencies. Agencies, however, may use their own form to report the required data to the central repository. It is important, at this point, to recognize that the purpose of these forms was to *collect* the various information concerning criminal activity. Because of the numerous data elements collected, law enforcement agencies *report* this data to the central repository via an automated system.

The UCR Committee recommended that the Superintendent of the Department of State Police adopt the minimum, mandatory data standards recommended by the FBI and proceed with implementation of Incident Based Reporting in Virginia. In addition, the committee recommended that the data be collected which would relate the property to the offense, the type of property security/alarm system used, and the means by which the offender left the scene of the offense. Additional data is also collected on Law Enforcement Officers Killed and Assaulted (LEOKA), providing description of activities and assignments the officer was performing at the time of the offense, as well as offenses that were also classified as Hate Crimes (i.e. bias motivated).

Some of the major benefits derived from the IBR system include: greater specificity in reporting; more correlation between offenses, property, victims, offenders, and arrestees; expanded victim/offender relationships; distinction between attempted and completed crimes and increased reporting of various circumstances relative to specific crimes. The IBR system requires that extensive data be reported for *each crime* occurring during a particular incident. Under the old summary system, only limited data concerning the *most serious crime* occurring during a particular incident was reported.

Information relating to two different levels of offenses is collected by the IBR system. The most serious offenses are designated as Group "A"; the less serious offenses are designated as Group "B". Group A offenses consist of 24 categories of crimes involving 52 different offenses; a maximum of 10 offenses per incident may be reported. Agencies are required to report 75 data elements for Group A offenses. Group B offenses, consisting of 10 crimes, only require reporting arrest data. Group A and B offense categories along with their definitions are provided beginning on page five.

While these figures are the most accurate available, it must be remembered that they represent a "snapshot" of incidents reported by local law enforcement agencies and are based on the UCR definitions. As such, it is possible that the number and categorization of offenses may differ when comparing these data with those from individual reporting agencies. If there are concerns with these differences, it is suggested that you contact the agency directly.

Crime Factors

Direct comparisons or rankings of individual cities and counties based solely on the data presented in this publication should be done with caution. There are many factors that influence or contribute to crime. Crime in Virginia, however, restricts itself to population size alone to establish a crime rate. In addition to population size, some other factors believed to affect the type and volume of crime include:

1) Population density and degree of urbanization;

2) Population variations in composition and stability;

3) Economic conditions, including median income, poverty level, and employment availability;

4) Cultural factors, education, and religious characteristics;

5) Family cohesiveness;

6) Climate, including seasonal weather conditions;

7) Effective strength of the police force;

8) Administrative and investigative efficiency of police agencies;

9) The organization and cooperation of adjoining and overlapping police jurisdictions;

10) Attitudes and policies of the courts, prosecutors and corrections;

11) Citizen attitudes toward crime and police;

12) Crime reporting practices of citizens.

Definition of Crimes, Offenses, and Incidents

Number of Crimes:

The Number of Crimes measure is calculated using the FBI Unit of Count. It is set to the number of offenses except in the following cases:

- If Offense Type is Crimes against Person, then the count is set to Number of Victims.
- If Offense Type is Motor Vehicle Theft, then the count is set to Attempted Motor Vehicle Thefts plus the Number of Stolen Motor Vehicles.

Number of Offenses:

This Measure counts the Number of offenses that match the selections.

In the case of violent crime, it counts 1 regardless of multiple victims and should not be used for disseminating NIBRS reportable crimes using the FBI rules of counting; Refer to the Number of Crimes above.

Number of Incidents:

This measure counts the number of incidents with a specific offense type submitted. This value is typically lower than the number of offenses, as multiple offenses may be committed within a single incident.

GROUP A OFFENSE DEFINITIONS

Animal Cruelty: Intentionally, knowingly, or recklessly taking an action that mistreats or kills any animal without just cause, such as torturing, tormenting, mutilation, maiming, poisoning, or abandonment

Arson: To unlawfully and intentionally damage or attempt to damage any real or personal property by fire or incendiary device

Aggravated Assault: An unlawful attack by one person upon another wherein the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness

Simple Assault: An unlawful physical attack by one person upon another where neither the offender displays a weapon, nor the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness

Intimidation: To unlawfully place another person in reasonable fear of bodily harm through the use of threatening words and/or other conduct but without displaying a weapon or subjecting the victim to actual physical attack

HATE CRIME

Hate Crimes

Hate crimes are not separate, distinct offenses, but rather reported crimes motivated by the offender's bias. Because of the difficulty of ascertaining the offender's subjective motivation, bias is reported only if the investigation reveals sufficient information to lead a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by bias against race, religion, disability, ethnicity or sexual orientation. There were 185 hate crime offenses, with 187 victims, reported by contributing agencies in 2019.

ARRESTS

Arrest Data

In 2019, there were a total of 274,636 arrests for both Group A and Group B offenses. It should be remembered that arrest figures cannot directly be compared to offense figures. Several persons could be arrested for the same offense or the arrest of one person could solve several offenses. For IBR purposes, agencies are instructed to count one arrest each time an individual is issued a summons or taken into custody for committing one or more offenses. A juvenile arrest is counted when an offense is committed and the circumstances are such that if the juvenile had been an adult, an arrest would have been made.

LAW ENFORCEMENT OFFICERS KILLED AND ASSAULTED

Law Enforcement Officers Killed and Assaulted

Through the Incident Based Reporting program, additional information is collected on law enforcement officers assaulted and feloniously killed in the line of duty. During 2019, contributing agencies reported that one officer was feloniously killed in the line of duty and there were 1,939 other assaults on officers. Additional information pertaining to law enforcement officers killed and assaulted is contained in an annual summary published by the FBI's National Uniform Crime Reporting Program.
